

E-SPD+

Control units for pumps with inverter technology

High efficiency

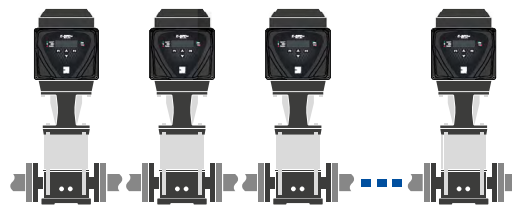

Compact dimensions

Practical and easy to use

TECHNICAL DATA

Frequency	50-60 Hz (+/-2%)
Max. ambient temperature	40°C
Insulation class	F
Protection degree	IP55

Parallel operation
up to 8 pumps

Model	Code	£ Stg	kW	Nominal current [A] Max	Main supply V _{in}	Motor output V _{out}
E-SPD+ MT2200	362425000A	1053.00	2,2	11	1~230	3~230

E-SPD+ TT11000	362425006	2508.00	11	30	3~400	3~400

* For 4kW 4 poles motors

Only the installation on motor board is allowed, as it cannot be fixed correctly to the wall.

In case of application of the inverter to the wall, only the model code 362425001A can be installed along with the wall mounting kit code 362426003 (to be required as accessory).
